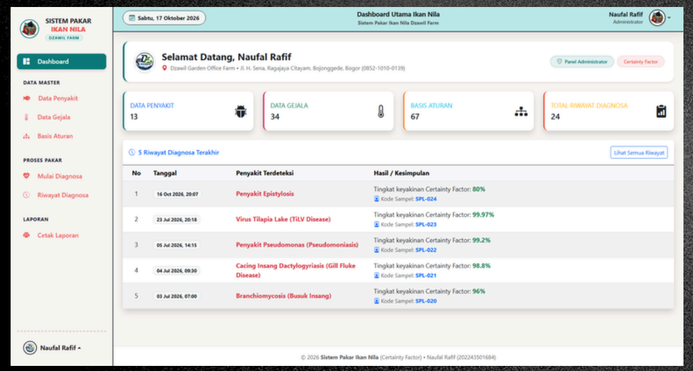
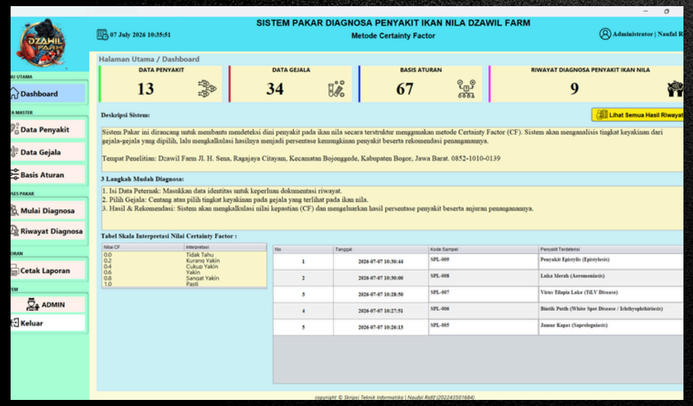
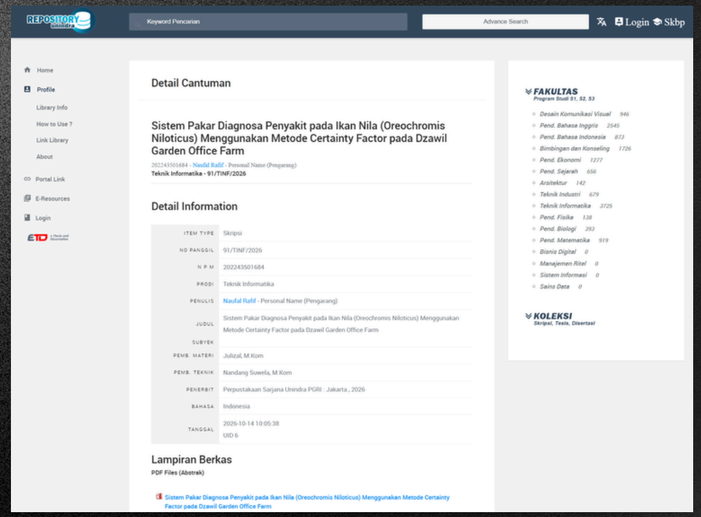
MY PROJECT

SISTEM PAKAR DIAGNOSA PENYAKIT BERBASIS CERTAINTY FACTOR







This system was developed as my Final Year Project to help tilapia farmers identify potential diseases based on the symptoms observed in their fish.

Technologies Used:

- PHP Native
- Java Netbeans
- MySQL (Database)

Users select the symptoms observed in their fish. The system processes the selected symptoms using the Certainty Factor method to calculate the confidence percentage for each potential disease, providing informative and evidence-based diagnostic results.

MY PROJECT

WS VISUAL JKT - OFFICIAL WEBSITE & DOCUMENTATION PORTFOLIO

Website Company Profile dan Layanan Fotografi & Videografi Sinematik untuk wsvisual.jkt yang melayani dokumentasi Wisuda, Event/Concert, Overland Trip, dan Drone Aerial 4K di wilayah Jabodetabek.

- BACKEND: PHP
- DATABASE: MYSQL
- FRONTEND: HTML5, CSS, JAVASCRIPT
